

# DEL NEGRO & SENFT EYE ASSOCIATES

## Eyes are Everything

### LASER CATARACT SURGERY

If your vision is clouded by cataracts, you may be limited in enjoying the things that are most important to you. Cataract surgery offers you the opportunity to take back your quality of life.

When you choose to have cataract surgery with Drs. Del Negro, Senft, or Glatman, you will have the best and most advanced options available. **That's why we are excited to be the first eye surgeons in the area to have offered Laser Custom Cataract Surgery!**

The LenSx® laser is a femtosecond laser that gives Drs. Del Negro, Senft, and Glatman computer controlled precision, allowing more accurate performance of some of the key steps of cataract surgery.

Utilizing the LenSx laser we can provide you with the safest, most accurate, and best treatment options—all while keeping in mind your particular needs.

All human eyes may share the same basic anatomic structure, but every eye and patient is unique. Your eyes are everything and deserve customized care. Call Del Negro & Senft Eye Associates today and let us help you achieve your best possible vision.

**W**hen you choose the LenSx® Laser approach with Drs. Del Negro, Senft, and Glatman, you will enjoy the benefits of:

- 👁️ *A gentle, accurate, precise treatment*
- 👁️ *A bladeless, advanced procedure*
- 👁️ *A comfortable, relaxed setting*
- 👁️ *A truly premium surgical experience*

**What Our Patients Are Saying:**

*"I enjoy everything I do now that I don't have to wear glasses. See clearly, enjoy movies, watch my nephews play sports, drive, and read."*

*"I'm very, very pleased! I can't believe the difference in what I can now see without glasses. I don't even need them to read. I healed very quickly with no discomfort. When I go to sew or mend I can get the thread right through the needle. In the past I had to work at it. Driving at night is much better-the red and green lights don't look like fireworks anymore, they look like round circles again. I am now doing as much driving as I did when I was working."*
